About the Farm

The Colombia San Antonio Excelso Coffee is produced by small farmers in San Antonio which is in the municipality of Inza in Cauca. This coffee is sourced by Pergamino Coffee in partnership with the Pillimue Family - local community leaders in the area. This region not only has beautiful vistas of the country, but also perfect agronomic conditions for high quality coffee. Each grower is dedicated to producing specialty coffee, and to do whatever they can during fermentation and drying to try to produce exceptional cup quality. These producers recognize that quality is the only way to reach economic sustainability, and apply this premise to everything they do.
