About the Farm

The Abiyot Ageze washing station is located in the the Gedeo zone of Konga, a district of Yirgacheffe. The washing station has 615 producers who contribute their coffee cherries annually. Ageze started the washing station in 2007 with objectives to expand marketability by becoming Organic certified. The goal of the station is to produce coffee that is sustainable and profitable for the farmers. Mr. Abiyot and his team support farmers by offering assistance in best farming practices and quality control levels on the farm.
